

**ABOUT GxP Systems** GxP Systems provides world-class compliance consulting and project management services to multinational clients in regulated industries. Leading businesses in the biotech, medical device, pharmaceutical, and oil & gas industries choose GxP Systems to achieve regulatory compliance and to systematically and continuously lower internal costs. Established in 1997, GxP Systems is headquartered in Cork, Ireland with a regional office in Boston, USA. ■

## Regulatory Compliance Consulting Services

Global businesses in regulated industries turn to GxP Systems to achieve compliance within an increasingly complex regulatory environment.

With a proven track record on global compliance projects, GxP Systems combines its extensive experience with innovation and technology to produce strategic plans for compliance and competitiveness initiatives.

Our people and technology help companies keep their systems in a state of validated compliance without losing operational flexibility and productivity. In fact, GxP Systems award winning teams are regularly recognized by our customers as having delivered on time, within budget and with energy and commitment.

GxP Systems teams embedded at client sites:

- Take full project management responsibility for the installation and qualification of new facilities, equipment, and processes within regulatory constraints.
- Micromanage process change and process improvements within regulatory constraints.
- Manage change by providing technical advisory support to in-house staff.
- Deliver innovative and creative solutions to manufacturing and quality processes.

Our clients keep coming back, time and time again. By forming long-term relationships with clients, we can provide the most highly trained GxP experts who learn from current practices and continually feed improvements back into the next phase of an engagement. Once compliance is obtained, clients return to us to tackle the next stage; and the cost-saving cycle continues.

### What our clients are saying:

*"The great thing about GxP Systems is that when you send me a specialist I know that if he runs into trouble he can call in the cavalry from GXP Systems to sort out any issue."*

— Major medical device maker.

*"Your in-depth knowledge of validation within this corporation was vital to the success of this project."*

— Major medical device maker.

*"Thank you for displaying the very highest levels of professionalism and flexibility."*

— Major medical device maker.
